I know it's been suggested before, but to bring up again - I would love to see Msgr. Knox's translation of the Latin Vulgate in Verbum! His elegant, timeless English is one of the greatest treasures of the 20th century Church. His translation is spiritual and literary, graceful and lyrical, making it one of the most beautiful vernacular versions of the Holy Bible.

As I never learned Latin so a good translation English translation of the Vulgate would be very useful. A Bible that was used for over 1400 years.

My appreciation of the Knox version continues to grow, the more I read it. And wouldn't it be nice to have another English rendering of the Vulgate in Logos?

I most definitely want Logos to get Knox's wonderful translation. That said for your case I believe the Douai version is an even closer translation of the Latin. Knox was faithful but occasionally his translation is a little less literal than the Douai.

The Douay Rheims Bible that Logos has the Challoner version of 1749 or so and not the 1585 version  
I have a PDF version of the 1585 version in Old English along with the Peter's transliteration.  
I am just familiar enough with them to know how to tell them apart and have used both in some studies.  
See [Matt 2:1](#)  
If it says Herrod the king and Sages it is the 1585 version  
If it says king Herod and wise men it is the Challoner changes  
See [Gen 1:5](#)  
If it says "and there was evening & morning, that made one day." It is the 1585 version  
If it says "and there was evening and morning one day" it is the Challoner changes  
See [Psa 1:1](#)  
If it says "that hath not gone in the counsel of the impious" It is the 1585 version  
If it says "the man who hath not walked in the counsel of the ungodly" it is the Challoner changes  
[[One test for each of the three volumes that the original was published in.]]  
But having more then one translation of a work is always better. Looking forward to "Knox's wonderful translation".

Yes Challoner revision is less literal by design to make the Bible more readable, before his revision it was not uncommon to have english catholics using the KJV because it was more understandable. Challoner's revision of Douay Rheims Bible offered a Bible that was much more readable. And in the end the greatest thing about the Knox Bible is it is a faithful translation of the Vulgate fully annotated in its notes when the latin deviates from the accepted Hebrew and Greek. His translation philosophy could easily have been that of the NIV *Literal as possible, free as necessary*. I too am greatly looking forward to the day this makes it into Logos.

Bump! I recently discovered the Knox Bible, and it has quickly become my translation of choice because of its readability while using timeless, formal English. This is one of the few Catholic translations that I can honestly say is a joy to pick up and read! It would undoubtedly be my default Verbum translation if/when it becomes available.

While it can be quite pithy.... Especially when we get into the psalms and he truly gives us the acrostics in english...

Psalm 118 (Hebrew 119) Shows that while he wished to remain faithful to the text he also tried his best to duplicate what helped make the original so memorable.

81 Keeping watch for thy aid, my soul languishes, yet I trust in thy word. 82 Keeping watch for the fulfilment of thy promise, my eyes languish for comfort still delayed. 83 Kitchen-smoke shrivels the wine-skin; so waste I, yet never forget thy will. 84 Knowest thou not how short are thy servant's days? Soon be my wrongs redressed. 85 Knaves will be plotting against me still, that are no friends to thy law. 86 Knaves they are that wrong me; bring aid, as thy covenant stands unchanging. 87 Keep thy bidding I would, though small hope of life they had left me. 88 Kind as thou ever wert, preserve me; then utter thy bidding, and I will obey.

Comparing that to the Douay-Rheims Bible which is closer to a literal rendering of the vulgate's latin:

81 My soul hath fainted after thy salvation: and in thy word I have very much hoped.

82 My eyes have failed for thy word, saying: When wilt thou comfort me?

83 For I am become like a bottle in the frost: I have not forgotten thy justifications.

84 How many are the days of thy servant: when wilt thou execute judgment on them that persecute me?

85 The wicked have told me fables: but not as thy law.

86 All thy statutes are truth: they have persecuted me unjustly, do thou help me.

87 They had almost made an end of me upon earth: but I have not forsaken thy commandments.

88 Quicken thou me according to thy mercy: and I shall keep the testimonies of thy mouth.

This is the best news I've heard in a long time. So happy to hear that there's some movement on the Knox Bible. I know that you're focused on the ordinary form of the breviary (Liturgy of the Hours) but while you're working with Baronius Press on the Knox Bible, you may also want to look into their [1961 English/Latin edition of the Roman breviary](#) (which is also valid and licit for regular use in the Church today). So many historical resources on Verbum refer to the breviary in its pre-1970 form. Baronius Press's version is a faithful reproduction of old 1963 Collegeville edition but with the Gallican Psalter (instead of the Pian Psalter). I highly recommend it for Verbum. Thanks and Merry Christmas!

We are currently carefully evaluating ways in which to provide our books in eBook format. If you would like to be informed when our titles are released in ebook format, please follow us on [Facebook](#) or [Twitter](#) or subscribe to our [Mailing List](#).

Something tells me Faithlife has the ability to get around that limitation....

Dear Mr. Ring,

As we stated last year, we currently have no plans to make any of our titles available in ebook format, and we have no plans to license our exclusive titles to Faithlife.

Kind regards,

Carlos Palad

Baronius Press

They seem totally opposed to licensing their publications even though Faithlife is able to publish with the formatting they desire.

Best wishes,

I think they're not steering us in the correct direction.

The people who actually own the rights to publish would be the Archdiocese of Westminster, I've tried to email them without response.

I admire their physical books, they're beautiful but I don't like their obfuscation, and I think they're being nasty in doing it when all they would have to do is say the Copyright is held by the Archdiocese.

It could be that the Archdiocese in 2012 assigned them complete rights, and the catholicbible.online site acquired rights prior to that time. However the Internet Archive only has archives of them since [March 6, 2016](#).

Also note that Templegate Publishers is publishing Knox's New Testament. [https://www.templegate.com/catalog/product\\_info.php?products\\_id=143&osCsid=bv6u5g4jsqeaf1h6at69qj1863](https://www.templegate.com/catalog/product_info.php?products_id=143&osCsid=bv6u5g4jsqeaf1h6at69qj1863)

Has Faithlife/Logos/Verbum approached the Archdiocese directly? As I mentioned, I've contacted the person in charge of media publications for the archdiocese but I have never received a reply.

Don,

Did you see my note as to the real holder of the Copyright on this, Archdiocese of Westminster holds the copyright, but they assigned it - either fully or partially to Baronius Press in 2009, I think it would be wise to contact the Archdiocese of Westminster as even when Baronius Press is lamenting that they cannot publish eBooks of their texts with multiple columns, and Fairlife has been doing this for years, they just won't budge. I've even proposed a licensing solution where each person wanting a Faithlife book show that they've purchased a Knox Bible from Baronius, but they will not back down. They seem not to understand that often electronic publications and paper publications have different uses. I have paper copies of my favorite Bibles and I enjoy reading them but for study, nothing beats Verbum/Logos/Faithlife software books.
